THESE KIND OF KNAVES

If there's one thing Henry Báthory wants, it's to be extraordinary. And when he acquires a book on magic, summoning a demon to give him magical powers seems to be the best way to leave behind a legacy.

All he has to do is complete one task.

GEORGE ELMER is a poet, writer and author of dark fantasy. With over a decade of planning and starting horror literature of varying lengths and completion rates, George has developed a succinctly wry voice that compels you into reading. With a joint degree in psychology and criminology, and diplomas in Egyptology, Mayan and Aztec History, and Medieval Europe, George has combined a morbid interest in human monsters with the folklore of her native England to create intricate and plausible worlds of supernatural horror. When she's not planning the next slaughter of a fictional character, George can be found researching various mythologies and historical daily life.
